

NYSC Connect – Project Documentation

Created by Emmanuel Daniel Itunuoluwa

Date: October 23, 2025

Overview

NYSC Connect is a mobile-first web application designed to enhance communication, commerce, and collaboration among National Youth Service Corps (NYSC) members during their service year, especially in orientation camps. The platform provides corporers with a trusted environment to exchange information, trade kits, and order food or supplies from verified vendors in Mami Market, all within their registered camp location.

Key Features

1. **Corper-to-Corper Exchange:** Members can trade or request kits and other essentials. 2. **Mami Market Access:** Users can browse and order from verified vendors available in their specific NYSC camp. 3. **Location-Specific Access:** Authentication ensures each corper only interacts within their assigned camp. 4. **Verified Login System:** Corper identity verification through state code or call-up number. 5. **Information Board:** Updates, announcements, and verified posts from OBS or camp authorities. 6. **Offline Compatibility:** Caching allows limited access even without stable internet connection.

Authentication & Security

To maintain integrity and prevent misuse, NYSC Connect implements state-code-based login and call-up number verification. This ensures only registered corps members from a specific camp can access that camp's dashboard, vendors, and exchange listings.

Monetization & Sustainability

- **Vendor Subscription:** Registered vendors in Mami Market can subscribe monthly to be featured in the app. - **In-App Ads:** Non-intrusive advertisements tailored to corporers' needs (travel, telecom, study, etc.). - **Partnership Model:** Collaboration with NYSC officials to integrate NYSC Connect as an official digital companion app.

Pitch & Expansion Potential

The project can be pitched directly to NYSC management or state coordinators as a digital innovation to improve camp logistics. It can later expand to cover post-camp services, connecting corporates to job opportunities, accommodation, and skill-development programs.
